EXPERIENCE

Senior Consultant | Value Engineering & Delivery Oct 2022 – Present
Deloitte USI, Gurgaon (Enterprise Consulting)

- Functioned as Product Owner across **3 enterprise transformation programs** (S&OP, Truck Load Optimisation, Supply Planning), owning the full customer value journey from discovery through go-live for FMCG clients, driving stakeholder alignment, solution delivery, and value realization across multiple portfolios.
- Owned and prioritised a product backlog of **100+ solution requirements (user stories)** across enterprise implementations, aligning prioritisation to business impact, technical dependencies, and user workflows, reducing mid-sprint scope changes.
- Led **10+ discovery and solutioning workshops** at program initiation, for a **Multi-Echelon Inventory Optimisation (MEIO)** program, translating complex business needs into **50+ documented requirements** aligned with the global product template and performing **as-is** and **to-be mapping** to define solution scope.
- Collaborated with business, technical, and data teams across sprint testing cycles, resolving **90% of high-priority defects** before launch, resulting in **zero critical production issues** at go-live.
- Designed a user journey to enable coordination between Deployment and Truck Load Planning enabling multi-shift shipment to optimise truck utilisation by pallet area and volume.
- Designed UAT coverage across **80+ test scenarios** and built **50+ user enablement guides** and Train-the-Trainer materials, driving product adoption and reducing post-launch support escalations.
- Conducted Six Sigma (FMEA) and Value Stream Mapping assessment for a pharmaceutical enterprise client, uncovering process inefficiencies that delivered **USD 1.2M in cost savings** and **40% defect reduction**.
- Facilitated agile ceremonies including sprint planning, standups, reviews, retrospectives and backlog grooming, tracked sprint status and authored key programme artefacts including user stories, acceptance criteria, stage gates, go/no-go decisions and hypercare status reports.
- Recognised with **3 Deloitte Outstanding Performance Awards** for on-time, high-quality go-live deliveries.

Management Consultant Feb 2021 – Oct 2022
Thoucentric, Bangalore (Supply Chain Consulting)

- Served as functional lead on an enterprise software implementation for a Belgium-based beverage client, owned requirements definition, sprint delivery and value realization across planning and analytics workstreams from discovery through go-live.
- Built **Power BI dashboards** tracking business KPIs across operations and resource allocation, enabling senior leadership to make data-driven decisions on cost and performance.
- Partnered with engineering to optimise a Python-based analytics plugin, **reducing runtime by 50%**, quantified and presented the performance impact to business stakeholders.
- Managed incident triage and resolution across UAT, production, and hyper-care phases, maintaining system stability and business continuity.

AI PROJECTS

View **4+** more detailed projects and live demos at [portfolio](#) →

Blinkit Peak Assist - Decision PRD Live Demo Support

Real-time decision layer for dark store managers during peak hours

Designed a decision-support system for **2,000+ Blinkit dark stores** handling **1.7M orders/day**, addresses decision-making failure under pressure where managers face **40+ unstructured decisions per hour**.

Tools Used: Claude Code, Vercel, GitHub

Missionaries & Cannibals - AI Puzzle Game

Classic river-crossing puzzle with a multi-agent AI system built on top

Built a **4-agent AI system** using Claude API, Validator, Planner, Explainer and Coach agents provide real-time move validation, strategic analysis and hints. Features both human play and **AI solver mode** using BFS algorithm.

Tools Used: Claude Code, Claude API, Multi-Agent AI, Python, Streamlit, GitHub

DealPilot - Founder CRM PRD Live Demo

Founder-first CRM for managing deals without a sales team

Built a CRM stripping enterprise complexity for founders managing deals across WhatsApp and product calls, fits **30-minute work windows** and addresses the **91% SMB CRM adoption failure rate**. **\$60B+ addressable market**.

Tools Used: Claude Code, Supabase, Vercel, Google Stitch, GitHub

Zepto PRD Live Demo

Interactive growth framework prototype for quick-commerce

Built an interactive demo visualising **Zepto's full customer lifecycle**, acquisition, activation, retention, referral and revenue, as a connected growth framework for quick-commerce decision-making.

Tools Used: Claude Code, Vercel, GitHub

EDUCATION

MBA - Operations Management
Symbiosis Institute of Operations Management
2018 – 2020 | Grade: 7.08

B.Tech - Computer Science Engineering
Guru Gobind Singh Indraprastha University
2011 – 2015 | Grade: 80.56%

Associate Consultant	Sep 2020 – Jan 2021
Infosys Ltd, Bangalore (Enterprise Technology)	
- Completed structured training in IoT communication technologies, building foundational knowledge in Industry 4.0 and smart manufacturing workflows. - Completed training on MES Apriso, gaining hands-on knowledge of manufacturing execution systems and shop floor process digitisation.	
Program Management Intern	Apr 2019 – May 2019
Swiggy, Mumbai (Food Delivery)	
- Led cross-functional initiative to redesign the delivery payout structure, reducing cost per delivery from Rs.46 to Rs.43 and saving approximately Rs.20L/month. - Conducted supply-demand gap analysis and cost-benefit modelling, delivering 16% weekly savings in minimum guarantee loss.	
Senior Systems Engineer	Sep 2015 – May 2018
Infosys Ltd, Mangalore (Enterprise Technology)	
- Developed SAP ABAP solutions for enterprise procurement workflows, building deep technical knowledge of SAP architecture and process automation. - Optimised ABAP programs, improving system runtime performance by 72%.	

SKILLS
Product Management
Discovery & Solutioning, Product Ownership, Backlog Management, Agile/Scrum (PSPO I), Sprint Ceremonies, User Stories, Acceptance Criteria, UAT Governance, Stage Gates, Go/No-Go, Value Roadmapping, Stakeholder Management
Domain & Industry
Supply Chain, S&OP, FMCG, Pharmaceutical, Enterprise B2B, Digital Transformation
Data & Analytics
SQL, Power BI, Six Sigma (Black Belt), Process Intelligence, Value Stream Mapping, Data Analysis
AI & Automation
Claude Code, Claude API, Multi-Agent AI, RAG, Supabase, GitHub, Vercel, Google Stitch, Loveable, Replit
Enterprise Tools
SAP (ABAP), Azure DevOps, MS Office
